Subject: Canceled: Gold King Mine Update
Start Date/Time: Thur 8/13/2015 8:30:00 PM
End Date/Time: Thur 8/13/2015 9:00:00 PM

***** Notice RRT representatives - unfortunately we need to cancel today's GKM update call. I will be in touch about a call tomorrow, Friday 8/14. Below are the few update items I have from the field and again, I apologize for any inconvenience. *****

Regarding R8 specific operations:

- we have flushed the irrigation canals in the Durango area; we had an OSC travelling with BIA to assess need to flush other ditches south of Durango.
- CDPHE is reportedly assisting at the GKM site to look at refining the water treatment process. We are still getting upsets in treatment due to changes within the mine workings.
- R8 EOC relayed to the field the need to assess and protect the Aztec Ruins National Monument.

Again, I apologize for the last minute change and will be in touch soon.

Hello Everyone,

We're going to have a quick call to provide updates on the Gold King Mine Incident. We'll cover any progress or changes in field work since yesterday and any questions you have. Thanks! Gina
